

# COTSWOLD

PREMIUM **RAW** DOG FOOD

## Cotswold RAW complete meals contain all the building blocks for a natural and biologically appropriate raw diet.

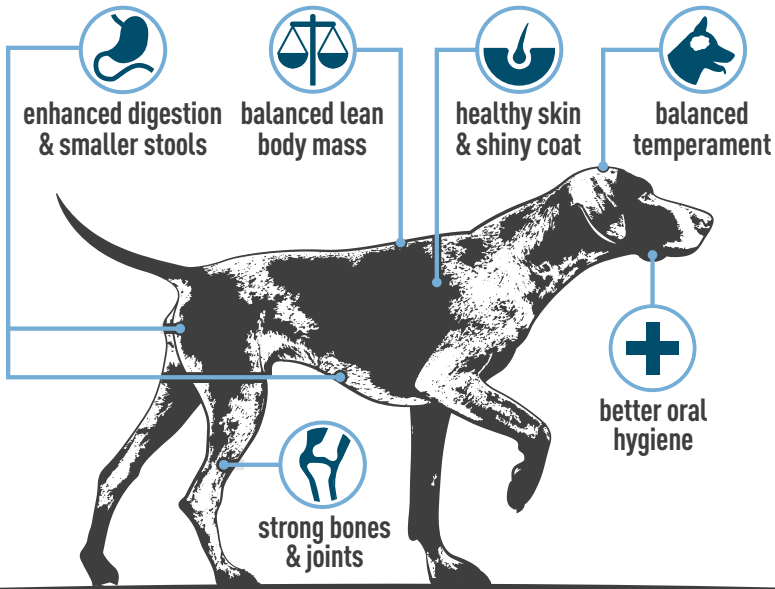

Our easy to handle sausage and mince meals are made in the Cotswolds using fresh, seasonal ingredients and our aim is to deliver the convenience of a processed food with all the health benefits of a fresh and varied raw diet.

Packed full of all the essential proteins, vitamins, minerals, amino acids, antioxidants and natural enzymes required for a happy and healthy life.

Trade Only. Contact your Local Depot or RSDM for more information.

# BENEFITS OF FEEDING RAW

**Dogs and Cats are hunters. The structure of their teeth and jaws and the make up of their digestive system are all designed specifically to deal with natural prey.**

Biologically Appropriate Raw Food (BARF™) diets are based on fresh foods such as raw meat and bones, seasonal vegetables and natural supplements and are designed to replicate this ancestral diet.

Cotswold RAW complete meals provide all the benefits of a genuinely natural species appropriate diet, in either a convenient sausage format or traditional mince.

**Trade Only. Contact your Local Depot  
or RSDM for more information.**
