### 820433 Baskerville Basket Muzzle s2

**RRP:** £8.49

**Depot Availability:** All depots

The NEW Baskerville Classic Muzzle has been created using an improved Thermoplastic rubber (TPR) material, which is lighter than the classic plastic design you find on the market but 4x stronger with increased durability. This unique material allows the Muzzle to be reshaped to a custom fit in hot water. The Baskerville Classic Basket Muzzle comes with an additional guard insert to prevent food and wildlife scavenging on walks, eating rocks, coprophagia and wound licking after surgery. The basket design ensures the dog's welfare by allowing them to pant, drink and play. With an improved padded nose piece and a secure easy-to-adjust neck strap, all dogs can be comfortable wearing their muzzle, keeping dog owners happy and confident in all situations.

## Small Animals

### 820651 Pillow Wad Farmer's Blend 2kg

**RRP:** £5.99

**Depot Availability:** All depots

Our Farmer's Blend is a select mix of quality hays providing natural goodness, beneficial nutrients, and a variety of taste and textures that have been mixed together for convenience. This hay brings the benefits of Meadow Hay with its varied grasses and herbs, mixed with a good proportion of Timothy Hay for added fibre and nutrients, and then finally a touch of Alfalfa Hay for added protein and vitamins. A great alternative and, as always, dust-extracted and unchopped to ensure only the best results.

## Birds

### 820155 Supa Canary Nest Pan 10pk

**RRP:** £22.50

**Depot Availability:** All depots

Supa Canary Nest Pan

Suitable for most types of Canaries and Finches to lay their eggs in during the breeding season.

Constructed from white polypropylene plastic that ensures the nest pan is both rigid and easy to clean.

Easy to remove when not required and can be reused.

Can be attached to a cage by using the white hooks on the rear of nest pan or can be attached via the screw hole (screw not provided) at the rear to a backing board.

Comes complete with holes to allow air circulation.

The nest pan has in the base small raised bobbles which are designed to help stop the nesting material moving.

Actual Nest Pan Dimensions: External Diameter 12cm. Internal Diameter 10.5cm. Internal Depth 5cm.

#### Hints & Tips:

Supa Canary Nest Pan is ideal for use with Supa Canary Nest Felt as this provides the optimum nest for your Canaries or Finches during the breeding season.

When locating your nest pan ensure it is not located near to the water drinker or feeding dish and not directly under a perch.

Also ensure the nest pan is positioned so it is secure and level to reduce the chances of a baby Canary falling out of the nest.

Breeding in Canaries usually happens in Springtime as they like 12 to 14 hours of daylight and ambient temperatures of 70 degrees.

Ensure your birds have access to cuttle fish or grit to provide the hen with the additional Calcium she will require for producing healthy eggs.
