Size 5	623904	Size 8	866693
Size 6	861288	Size 9	864796
Size 7	866210		

A very strong muzzle with a pre-moulded shape for fast and easy fixing.

## Fitting Instructions

Allow enough space for you to slide one finger inside the muzzle, round the dog's nose (fig.1). This will enable them to pant, drink and for you to give titbits during use in training sessions. Practice putting the muzzle on and then reward and praise the dog to encourage it to relax (fig 2.) Attach the Velcro loop to the dog's collar for extra security.

### Make sure:

- You have the right size muzzle for the dog.
- You do not leave a muzzled dog unattended.
- The muzzle is only used for safety and restraint - not punishment.
- You do not use for prolonged periods.

Pet Remedy Diffuser	40ml	771656
Pet Remedy Refill	2X40ml	771667

Pet Remedy works alongside the brain's natural 'messengers' called neuro-transmitters, which work by telling the nerve receiving the message either to calm or get 'fired up'. In times of stress or anxiety the nerves get over stimulated, which leads on to the many symptoms we see in stressed pets. The actives in the special Pet Remedy blend of essential oils work by mimicking the natural calming neuro-transmitter called GABA (Gamma Amino Butyric Acid) to calm the nerves. Coverage up to 60m<sup>2</sup> (650sq. ft).
